Medical Director

February 10th, 2021,

To Our Residents, Resident Representatives and Family Members:

The COVID- 19 pandemic has been an unprecedented challenge and has forced us to make changes to our normal processes. We continue to follow all CMS and State guidelines as we focus on the safety and health of our residents and staff.

Currently, we are providing twice weekly Covid-19 testing of all staff and in an effort to stop any spread of the virus within the facility.

As of today, we have the following:

Total Positive diagnosis for COVID-19: 0
Residents within the facility – 0
Residents outside the facility - 0
Staff- 0

.

The Covid-19 vaccine has arrived and all residents and staff have been offered the vaccine and administered the vaccine. We will be providing the second dose at the beginning of February.

All areas within the facility are Covid-19 free and looking forward to having the community rates drop, so we can have limited indoor visitations.

Looking forward to a healthy 2021 and returning to more normal operations.

Sincerely,

DCHC Administration
