

Our Mission

At *Connected Living*, our mission is to provide the highest quality of healthcare for patients with medically complex cases. We strive to create a wholesome sanctuary where essence breathes relaxation and rehabilitation in a home-like setting.

Our Dedicated Staff

Connected Living offers a more personal approach to care and provides a service that is unique. Our wonderful team is composed of physicians, nurses, therapists, activities directors, and dietitians.

Together, we create an environment that allows our patients to thrive.

Our Services

Connected Living offers customized treatment plans and personalized care. We provide 24-hour skilled nursing, supportive care and medical supervision specializing in:

- ~Pulmonary (tracheostomy care, ventilator care, and weaning)
- ~Acquired Brain Injury
- ~Amputee Care
- ~Congenital Disorders
- ~Medically Complex Cases:
- ~G- and J-tube feedings, multiple trauma, isolation, complex wound care)

Our Payer Sources

At *Connected Living*, we work toward providing the best possible care for our patients at a lower cost alternative to acute care. We work closely with a number of payer sources including:

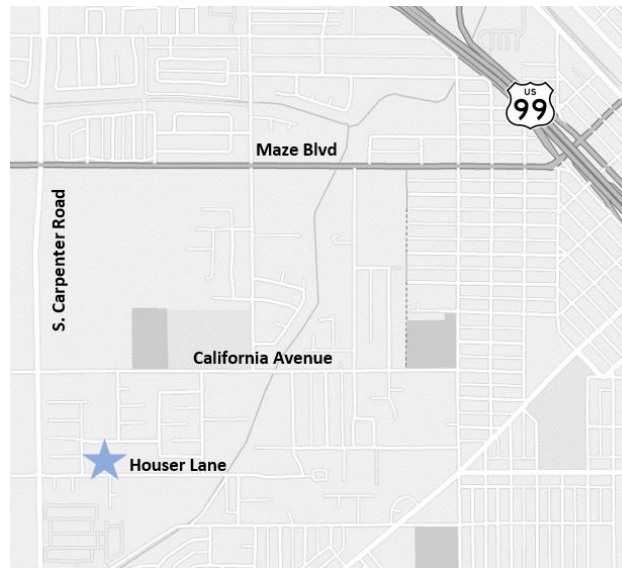

- ~Private Insurance
- ~HMO/ PPO
- ~Worker's Compensation
- ~Managed Medi-Cal
- ~Private Pay
- ~Veteran Affairs
- ~Regional Centers
