

**ALL STAFF/FAMILIES/RESIDENT ALERT:**

The final results of our facility wide testing from Monday are in. We have 5 total confirmed cases of COVID-19. Three are assisted living tenants and one positive case in a nursing home resident, all of which we are monitoring closely at this time. We also have the one confirmed staff from last week that is home monitoring symptoms. We feel proud to say that all other staff have tested negative this week.

Please know that we are taking all precautions to stop the spread of this virus. We are currently conducting contact tracing related to potential exposure. Please be sure to answer any calls you may receive from us or return our calls promptly. We continue to screen all staff at the beginning and end of shifts per guidelines and monitor all residents twice a day for any symptoms.

We are working with several teams from the Minnesota Department of Health.

Our priority is to keep everyone safe and healthy, and have open, honest communication about our status.

Thank you for your patience and understanding during this difficult time. We will continue to provide you with weekly updates and you will be notified directly if you or your loved one have tested positive.

Sincerely,

Mark Rust Administrator

Kendra Hiles Director of Nursing
